Interval	Once every <input type="text"/> days

interval of 30 days, havent seen in 26 days

interval of 60 days havent seen in 40 days
meters? icons? numbers? too scary!

Phil is on vacation, paused for 40 days (meter reflects)

- * interval = every 30 days
- * 20 days since last hangout
- * should start planning a hangout soon

Friends will be ordered/prioritized based on percentage of days out of interval time
